

★ The Road Tapes

Bio

Hailing from Philadelphia, PA, The Road Tapes are eclectic music makers pulling inspiration from Americana, Roots-Rock, Folk & Soul music. Driven by Songwriters Drew Nielands & Colin McGetrick, the longtime friends & collaborators have aligned their sound over years of live performances.

Priding themselves on taking a "DIY approach" to music making, The Road Tapes not only produce & engineer their own records, but also build their own instruments (The band plays hand-crafted guitars built by guitarist/carpenter Colin McGetrick, owner of McGetrick Guitars).

"High Water" is the band's debut album, released in the Winter of 2021.
